

Cross out and subtract

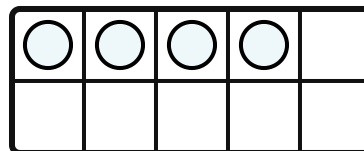

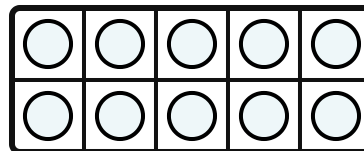

Cross out the counters you take away. Count what is left and write it.

$$12 - 2 = 10$$

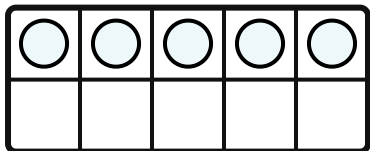

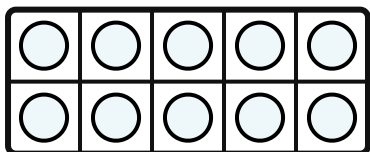

Example

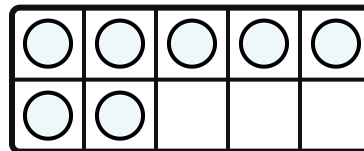

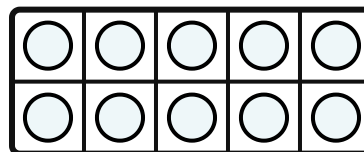

$$14 - 3 = \square$$

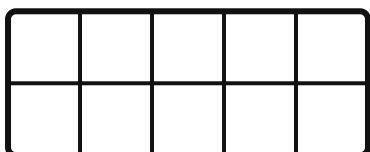

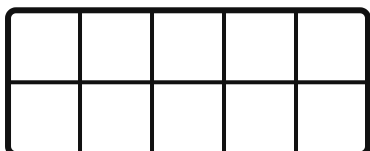

$$15 - 5 = \square$$

$$17 - 4 = \square$$

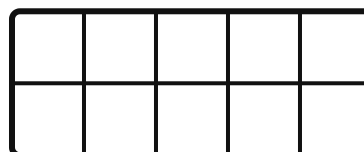

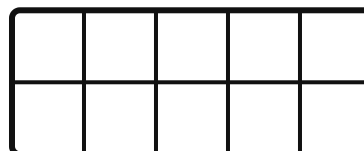

$$16 - 6 = \square$$

Draw 16 counters first.

$$13 - 2 = \square$$

Draw 13 counters first.
