

Roles in a food web

Read what each role means. Then match and sort the living things.

1 Draw a line from each role to a living thing that fits it.

Producer

makes its own food from sunlight

bear

Herbivore

eats only plants

mushroom

Carnivore

eats only other animals

tiger

Omnivore

eats both plants and animals

vulture

Decomposer

breaks down dead plants and animals

tree

Scavenger

feeds on animals that are already dead

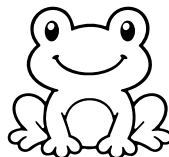

rabbit

2 Write the role of each living thing.

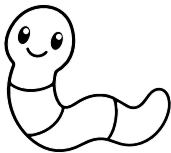

koala

frog

raccoon

worm

corn

eagle
