

Make a timeline

Learn the steps for making a timeline. Then make and read your own.

1 Learn the four steps.

- 1 Find the earliest and the latest dates.
- 2 Draw a line. Mark equal spaces, such as every 5 years.
- 3 Put a dot at each date and label the event.
- 4 Give your timeline a title.

Example: Ama's life

2 Make a timeline of Canadian symbols.

(A) 1980: O Canada becomes the national anthem.

(B) 1965: The maple leaf flag is raised for the first time.

(C) 1999: Nunavut becomes Canada's newest territory.

(D) 1975: The beaver becomes an official symbol of Canada.

(E) 1994: Hockey and lacrosse become national sports.

(F) 1982: The Charter of Rights and Freedoms becomes law.

Title: _____

Label the missing years. Then put a dot and its letter at each event's year.

3 Read your timeline.

1. Which event on your timeline came first?

2. How many years after the first maple leaf flag was Nunavut created?

3. Which two events are closest together? How many years apart are they?

4. How many of the events happened in the 1990s?
