

Landform glue-in

Read each definition. Cut out the landform pictures and glue each one in the right box.

1 glue	A deep, narrow valley with steep rock walls. A river often carved it. Example: Copper Canyon in Mexico	2 glue	Land that has water all the way around it. Example: Prince Edward Island in Canada
3 glue	High land with steep sides and a large, flat top. Example: the Tibetan Plateau in Asia	4 glue	A very tall landform with steep sides that rises to a peak. Example: Ben Nevis in Scotland
5 glue	Land with water on three sides that is joined to a bigger piece of land. Example: the Yucatán Peninsula in Mexico	6 glue	Low land between hills or mountains, often with a river. Example: the Okanagan Valley in Canada

Cut out the pictures along the dotted lines.
