

Label photosynthesis

Write a label from the box in each empty box on the diagram.

① Label the diagram. Arrows show what moves into or out of the plant. _____

LABELS

sunlight

carbon dioxide

oxygen

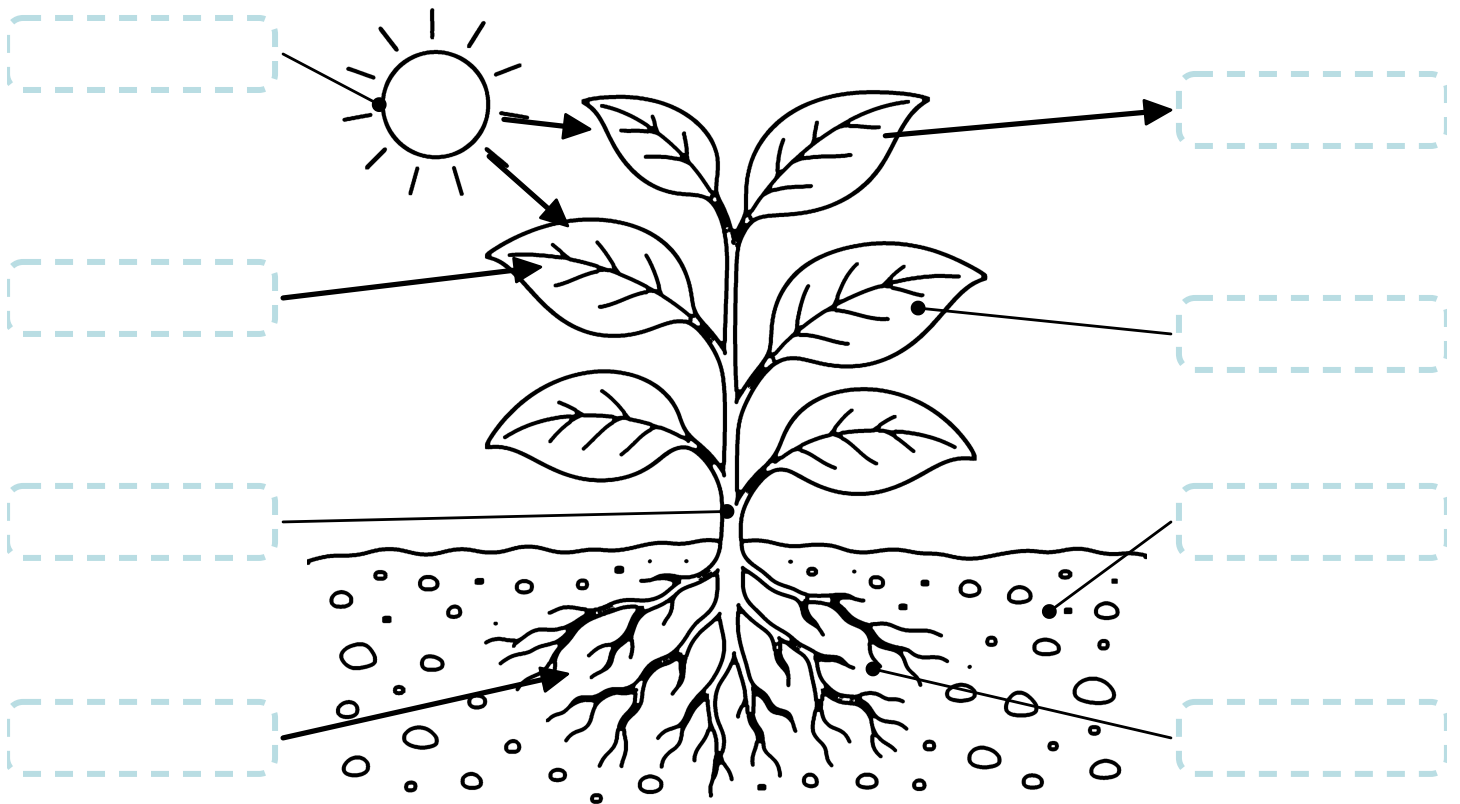

water

leaf

stem

roots

soil

② Use the diagram to answer. _____

1. carbon dioxide + _____ + sunlight make _____ (the plant's food) + oxygen
2. Which gas does the plant give off that people and animals breathe in?

3. Where does the plant get the carbon dioxide it needs?

4. Why can a plant not make its food in the dark?
