

Melting and freezing

Heat makes ice melt. Cold makes water freeze. Label, number and circle.

① Label the arrows. Write melting or freezing.

② Number the pictures 1, 2 and 3. Then answer.

What made the snowman melt? _____

What could turn the puddle into ice again? _____

③ Melting or freezing? Circle one.

1. A chocolate bar gets soft and runny in a hot car.
2. Juice in the freezer turns into an ice pop.
3. Ice cream drips down the cone on a sunny day.
4. A puddle turns to ice on a cold winter night.
